University of Florida:

Shands Teaching Hospital and Clinics, Inc. was incorporated October 15, 1979, as a not-for-profit corporation. Shands, a major tertiary care teaching institution, is a leading referral center in the State of Florida and the southeast United States and facilitates medical education programs at the University. Shands entered into a contractual agreement, as of July 1, 1980, with the State Board of Education of the State of Florida, as subsequently restated and amended, which provides for the use of hospital facilities at the University of Florida Health Center through December 31, 2030, with renewal provisions. The contractual agreement also provides for the transfer to Shands of all other assets and liabilities arising from the operation of the hospital facilities prior to July 1, 1980. At termination of the contractual agreement, the net assets of Shands revert to the State Board of Education. Legal title to all buildings and improvements transferred to Shands remains with the State of Florida during the term of the contractual agreement. The contractual agreement provides for a 12-month grace period for any event of default, other than the bankruptcy of Shands. In addition, the contractual agreement limits the right of the State Board of Education to terminate the contractual agreement solely to the circumstance in which Shands declares bankruptcy and, in such event, requires net revenues derived from the operation of the hospital facilities to continue to be applied to the payment of Shands' debts. Under the terms of the contractual agreement, Shands is obligated to manage, operate, maintain, and insure the hospital facilities in support of the programs of the Health Center at the University of Florida and further agrees to contract with the State Board of Education for the provision of these programs.

Baby Gator Child Care Center, Inc. was incorporated October 19, 1970, under Florida Statutes, Chapter 1011.48, to establish and operate an educational research center for child development for children of University of Florida students, faculty, and staff. The Center is funded primarily through fees paid by parents and an annual allocation of funds from the Capital Improvement Trust Fund established by the State Board of Education. In addition, the Center receives other governmental assistance. The Center uses a facility owned by the University without charge. The University also provides other services and support for the Center, some also without charge. The Center's policy is to not record contributed facilities, services, and ot

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

The Statement of Revenues, Expenses, and Changes in Net Assets is presented by major sources and is reported net of tuition scholarship allowances. Tuition scholarship allowances are the differences between the stated charge for goods and services provided by the Universities and the amount that is actually paid by the student or third party

The Universities participate in investment pools through the State Treasury and the State Board of Administration in accordance with the provisions of Sections 17.61 and 215.49, Florida Statutes. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes. The Universities' investments in these pools are reported at market value.

Additionally as authorized by Section 1004.24(2), Florida Statutes, and specifically authorized by the former Board of Regents in 1995, the Universities have invested assets of the University of Florida and University of South Florida Self-Insurance Program outside the State Treasury. Local investments consist of instruments listed in Section 215.47, Florida Statutes, and are reported at market value. The Universities have also received donations of marketable securities. These securities are reported at market value. Investments set aside to make debt service payments, maintain sinking or reserve funds, and to purchase or construct capital assets classified as restricted.

Generally accepted accounting principles require the classification of credit risk of investments into the following three categories:

Risk Category 1 - Insured or registered, or securities held by the University or its agent in the Universities' name.

Risk Category 2 - Uninsured and unregistered, with securities held by the counter party's trust department or agent in the Universities' name.

Risk Category 3 - Uninsured and unregistered, with securities held by the counterpart or by its trust department or agent but not in the Universities' name.

Universities' investments in the investment pools managed by the State Treasury and the State Board of Administration cannot be categorized because the Universities' investments are not evidenced by specific, identifiable investment securities. Under the state treasury's authority to purchase and sell securities, it has entered into reverse repurchase and secured lending agreements. A reverse repurchase agreement is a sale of

The Florida Atlantic University Foundation, Inc., in 1999 and 2000 issued the 1999 and 2000 Certificates of Participation (the Certificates) for \$6,230,000 and \$6,300,000, respectively. The funds were used to build dormitory buildings on the John D. MacArthur campus in Jupiter, Florida. The interest rates on the 1999 certificate range from 3.5 percent to 5 percent while the interest rates on the 2000 certificates range from 4.7 percent to 5.875 percent. The Foundation entered into Master Lease agreements with the former Board of Regents (the Board) whereby they are obligated to pay to the Board \$1 per year for each of the properties. The Foundation further entered into agreements to lease the buildings to the University in exchange for the University paying all amounts due under the Certificates.

Compensated Absences Payable Employees earn the right to be compensated during absences for annual leave (vacation) and sick leave earned pursuant to Board of Governors Rule 6C-5.920, Florida Administrative Code, and pursuant to bargaining agreements with the United Faculty of Florida. Leave earned is accrued to the credit of the employee and records are kept on each employee's unpaid (unused) leave balance. The University reports a liability for the accrued leave; however, State appropriations fund only the portion of accrued leave that is used or paid in the current fiscal year. Although the University expects the liability to be funded primarily from future appropriations, generally accepted accounting principles do not permit the recording of a receivable in anticipation of future appropriations. Consequently, the recording of the liability for compensated absences, without the corresponding recognition of such future resources, results in the appearance of a reduced ability to meet current obligations. At June 30, the estimated liability for compensated absences, which includes the University's share of the Florida Retirement System and Social Security contributions, are shown below. The current portion of the compensated absences liability is based on actual payouts over the last three years, calculated as a percentage of those years' total compensated absences liability.

11. FUNCTIONAL DISTRIBUTION OF EXPENSES

The functional classification of an operating expense (instruction, research, etc.) is assigned to a department based on the nature of the activity, which represents the material portion of the activity attributable to the department. For example, activities of academic departments for which the primary departmental function is instruction may include some activities other than direct instruction such as research and public service; however, when the primary mission of the department consists of instructional program elements, all expenses of the department are reported under the instruction classification.
