

## 8.013 Specialized Admissions

(1) Specialized admissions status allows the university to establish additional criteria for admission to undergraduate programs. The Board of Governors may approve certain undergraduate degree programs as specialized admissions programs upon request by the university board of trustees if the programs meet one or more of the following criteria.

- (a) The number of students who meet all the requirements for admission to the university and to the program are in excess of available resources such as: space, equipment, or other instructional facilities; clinical facilities; required student-faculty ratios; fiscal or other resource limitations. In the case of such programs, selection for admissions shall be competitive.
  - 1. Admissions criteria for undergraduate programs approved based on this criterion may vary from academic year to academic year, depending on program capacity. Criteria changes should also be reasonable, taking into consideration prospective program applicants who may need to make adjustments to meet the new criteria.
  - 2. Undergraduate programs approved by the Board of Governors for specialized admissions due to limited resources will receive this status for a maximum of four years. At the end of four years, the university may reapply for specialized admissions status. If the university does not reapply at the end of four years, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
- (b) The undergraduate program is of such nature that applicants must demonstrate through an audition or submission of a portfolio that they possess the minimum skills necessary for them to benefit from the undergraduate program.
  - 1. Undergraduate programs receiving Board of Governors approval for specialized admissions because minimal skills are necessary will receive this status for a maximum of five years. At the end of five years, the university may reapply for specialized admissions status. If the university does not reapply at the end of five years, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
- (c) If the undergraduate program is accredited by a national, state, regional, or programmatic body that imposes requirements or limitations that necessitate the use of additional admissions criteria, the undergraduate program must also meet the criteria outlined in (1)(a) or (1)(b) to be considered for specialized admissions status.

1. Undergraduate programs receiving Board of Governors approval for specialized admissions because of regulating body requirements and either (1)(a) or (1)(b) will receive this status for the maximum number of years associated with either (1)(a) or (1)(b). If the university does not reapply, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
- (2) Undergraduate programs may have the following admissions requirements without seeking specialized admissions status.
  - (a) Prerequisite courses and minimum grades in prerequisite courses. The establishment of prerequisite courses and grades in prerequisite courses must adhere to requirements established in Regulation 8.010, Common Prerequisites.
  - (b) Admission requirements and standards established in Florida Statutes.
- (3) Undergraduate degree programs approved by the Board of Governors for the Programs of Strategic Emphasis Waiver are not eligible for specialized admissions.
- (4) A plan and timeline for increasing capacity to meet student demand and/or workforce needs or sufficient rationale as to why capacity cannot be increased must be submitted with the application for the following undergraduate programs.
  - (a) Undergraduate programs requesting Board of Governors approval for specialized admissions based only on the criteria in (1)(a).
  - (b) Undergraduate programs requesting Board of Governors approval for specialized admissions that are classified as a Program of Strategic Emphasis

(b) Each university shall advise students who meet the minimum requirements for admission to the upper division of a state university, but are denied admission to specialized admissions programs, of the availability of similar programs at other State University System institutions and the admission requirements of such programs.

(6) Monitoring and Reporting Requirements: Each State University System institution is required to annually verify admission requirements for approved specialized admissions programs with the Board of Governors' Office.

Authority: Section 7(d), Art. IX, Fla. Const.; History: New 3-29-07
